## ABOUT ME

My name is Jugal Bhavsar from India, currently working as a freelance surface designer and 3D visualisation artist. I design because it has intrinsic value to me – it combines my passion for learning and expression with the technical skills I've developed over years of 3D modelling and visualisation. I continuously seek knowledge, explore new possibilities, and adapt to diverse projects where I can contribute creatively and collaboratively.

## WORK EXPERIENCE

● **OIA Electric, India**  
2021 - 2025

### Senior Surface Designer

Have been part of the team around 4 years now worked many different production to concept vehicles which were built into prototypes as well. Also have been doing internal Visualization work for the designers in the studio.

● **Edag Italia, Torino**  
2020 - 6 Months

### Internship As Surface Designer

The experience gave me an insight regarding how to work with class A surfaces and gaining Catia level tolerance for the surface of the model.

● **Italdesign, Moncalieri**  
2018 - 6 Months

### Internship As Surface Designer

During my internship program, I gained the experience as a part of a team and in-depth understanding of how to make models faster, efficiently and without losing the quality of the surface. Learned how to make complex yet clean surface layouts even did some parametric design components for some vehicles. Last but not the least I got to be a part of their concept vehicle for Geneva 2019.

## EDUCATION

● **Gujarat Technology UNI, India**  
2013 - 3 Years

### Diploma in Automotive Engineering

During the three years, I was introduced to the car industry and the basic engineering anatomy of a car. Learned about what it takes to make the mechanical horses.

● **Istituto Europeo Di Design, Torino**  
2015 - 3 Years

### Bachelor's in Automotive Design

Three years of my study helped me navigate through the process of design and understanding of solving problems that exist and are yet to be discovered.
